INDEX.

VOL. CXXX.

Illustrations.

Names.

A

ABELL, Professor T. B., on Characteristics of a Marine Propeller in a Non-uniform Stream, 291
Adamson, Joseph (Portrait), 182
Adhex Leather Belt, Monsieur Henri Guillou, 590; (Letter), 606
Ahrons, E. L., Locomotives Built by Messrs. B. Hick and Son, Bolton, 102
Ahrons, E. L., on Messrs. W. and A. Kitching, Hope Town Foundry, Darlington, 419; (Letters), 448, 478, 528
Ahrons, E. L., on The Railway Foundry, Leeds (E. B. Wilson and Co.), 369
Allen, W. H., Son and Co., Surface Ignition Engine, 32
Alloy Welding Processes, Limited, Portable A.C. Welding Equipment, 360, 361
American Beam Trawler Mariner, 612. 616
American Concrete Mixing Machinery, 193, 197, 275, 343, 354, 382 (for Sub-headings, *see* Miscellaneous Index)
American Mercury Vapour Boiler. W. L. R. Emmet, 516
American Oil-electric Auxiliary Yachts Elfay and Guinivere, 617
Archdale, James, and Co., Milling Machines at Olympia, 244, 245, 254
Armstrong, Sir W. G., Whitworth and Co., Limited, 12in. Howitzer on Railway Truck Mounting, 204, 209
Armstrong-Siddeley Six-cylinder Laudaulet, 476, 478
Arroi, Sir William, and Co., 120-Ton Overhead Travelling Crane with Telescopic Cage, 66
Arthur, Captain J. Stanley, on the Sterilisation of Water by Chlorine Gas, 527, 531, 564
Asquith Radial Drilling Machines, 245, 254
Avro Five-seater Passenger Triplane, 78

B

BADEN, ex-German Battleship, and the Cruiser Nürnberg, 319 (*Two-page Supplement, October 1st*, 1920)
Baghdad Railway, Major D. G. Heslop, 469, 480, 523, 551, 560, 601 (*Two-page Coloured Supplement, November 26th*, 1920)
Baker, F. E., Limited, Precision Motor Cycle Works, 575, 586
Bamlett's Potato Digger, 59
Barnes Scarfing Machine, 162
Barnfather Hose Coupling, 590
Bateman Electrically-driven Planer, 292
Banmann, K., on Feed Heating for Land Power Stations, 101, 127, 150
Baush Multi-spindle Drilling Machine, 270, 274
B.C.B. High-speed Plunger Pump, 539
Beardmore, W., and Co., Limited, H.M. Light Cruiser Raleigh, 374
Beardmore's Locomotive Works, 149 (*Two-page Supplement, August 13th*, 1920)
Bell Locomotive Works, High-pressure Geared Locomotives, 461
B.S.A. Tools, Limited, Sensitive Drilling Machine, 246
Boving and Co., 8000 H.P. Pelton Turbines, Pipe Line, Valves, &c., for Tasmania. 3, 12, 40 (*Two-page Supplement, July 2nd*, 1920)
Brackett, F. W., and Co., Limited, Water-screening Plant, 541
Brampton Brothers, Chain Drive, 248
Breuil Works, Schneider and Co. (i, vi, vii, x, *Sixteen-page Supplement and Four-page Supplement, September 17th*, 1920); Open-hearth Furnace, 60 Tons, and Shop, Charging Side and Tapping Side (vi, x, *Sixteen-page Supplement and Four-page Supplement, September 17th*, 1920)
Bristol Aeroplane Company's Seaplane, 488
Bristol "Pullman" Triplane, Bristol Aeroplane Company, 52 (*Supplement, July 16th*, 1920)
British Aerial Transport Company's Single-seater Monoplane "The Crow," and Five-seater Commercial Aeroplane, 53 (*Supplement, July 16th*, 1920)
British Berna Side and End-tipping Wagon, 424, 425
British Railway Workshops in War Time, 27, 36, 77
British Thomson-Houston Company, Motor-switch Panel, 247, 248
Broom, Talbot C., on Stresses in Portals and Similar Structures, 368, 393, 417
Brown, David, and Sons, Limited, Double Helical Gear Generator, 291, 302
Brown, David, and Sons, Worm, and Worm Wheel Machinery, 228, 234; Spur Gear Generator, 234
Bruce Peebles and Co., Enclosed Motor for Steel Works, 504
Burmeister and Wain, Motor Ship Theodore Roosevelt, 236
Burt Single Sleeve Valve Petrol Engine, Wallace Farm Implements, Limited, 154, 155, 158

C

CALTHROP Parachutes and Quick-release Device, 79, 80
Cambridge Building, New York, Underpinning, 26
Cambridge and Paul Instrument Company, Electrical CO_2 Recorder, 333, 334
Cambridge and Paul Instrument Company, Electrical Distance Thermometer, 335
Cammell Laird Motor Ship Fullagar, 69
Carey Oil Transmission System, 284
Carmichael's Engine of 1833, 15, 16
Carmichael's Locomotive Gear of 1833, 15, 16
Central Aircraft Company's "Centaur," Three-seater Seaplane, 53 (*Supplement, July 16th*, 1920)
Chalon-sur-Saone Works, Schneider and Co., Movable Shop End at (xi, xiv, *Sixteen-page Supplement, September 17th*, 1920)
Champagne-sur-Seine Works, Schneider and Co., Dynamo Erecting Shop at (xii, xiii, *Sixteen-page Supplement, September 17th*, 1920)
Churchill Plain Grinding Machine, 332
Clark Truck Tractor Company, Three-wheeled Motor Tractor, 92
Clayton Overtype Tipping Wagon, 400
Cleworth, Wheal and Co., Air Filter, 504, 505
Cleworth, Wheal and Co., Water Cooler, 505
Clifton and Baird's Cutting-off Machines, 269
Cockerill Blast-furnace Gas Engines, Professor H. Hubert, 495; (Letter), 558
Consolidated Pneumatic Tool Company's Electric Grinder, Electric Drills and Magnetic Tool Post, 360
Cooke, Charles John Bowen (Portrait), 397
Coventry Gauge and Tool Company, Manufacture of Hardened Screw Gauges, 310, 311
Cowans, Sheldon 150-Ton Floating Crane, 18
Crampton's Locomotive Gear of 1842, 16
Creusot and Breuil, Plan of Works at (i, *Sixteen-page Supplement, September 17th*, 1920)

Creusot Works, Messrs. Schneider and Co.:

Armour Plate Bending Presses, 8000-Ton and 5000-Ton (viii, *Sixteen-page Supplement and Four-page Supplement, September 17th*, 1920)
Blast-furnace Gas Engine and Electric Generator (ii, *Sixteen-page Supplement, September 17th*, 1920)
No. 3 Blast-furnace under Construction (ii, iii, iv, *Sixteen-page Supplement, September 17th*, 1920)
Building a 3000 H.P. Blast-furnace Gas Blowing Engine (v, *Sixteen-page Supplement, September 17th*, 1920)
Cogging Mill, Two-high Reversing (vii, *Sixteen-page Supplement and Four-page Supplement, September 17th*, 1920)
Flanging Press, 1000-Ton (viii, *Sixteen-page Supplement and Four-page Supplement, September 17th*, 1920)
Forging Press, 2000-Ton (viii, *Sixteen-page Supplement and Four-page Supplement, September 17th*, 1920)
Furnace, "Electro-metals," 3.5-Ton (vii, *Sixteen-page Supplement and Four-page Supplement, September 17th*, 1920)
Heavy Planing Machine (xiii, *Sixteen-page Supplement, September 17th*, 1920)
Mill Re-heating Furnace (viii, *Sixteen-page Supplement and Four-page Supplement, September 17th*, 1920)
Saint Eugene Garden City (xv, *Sixteen-page Supplement, September 17th*, 1920)

Creusot Works, Messrs. Schneider and Co. *(continued)*:

Tilting Furnace, 12-Ton (ii, *Sixteen-page Supplement, September 17th*, 1920)
Tire-finishing Mill, Tire-roughing Mill (viii, *Sixteen-page Supplement and Four-page Supplement, September 17th*, 1920)
Turbo-alternator, 10,000 K.W., 1260 R.P.M. (v, *Sixteen-page Supplement, September 17th*, 1920)

CROSSLEY Brothers, Gas Engines at Darlington, 8, 9
Crossley's Magneto, Governor and Cam Gear Mechanism, 9
Crossley Motors, Limited, 19.6 H.P. Motor Car, 450
"Crown Magnetic" Car Chassis, 498, 499, (Letters), 528, 558, 606

D

DAIMLER 2-Ton Tipping Wagon, 400
Darlington, Royal Agricultural Show at, 8, 32, 58
Davey, Norman, Studies in Tidal Power, 556, 578, 603, 634, 652; (Letters), 606, 644
Dean, Smith and Grace's 8¼in. Repetition Lathe, 359
Derwent Goods and Mineral Engine, 1845, 420
Derwent Valley River Lands, Reclamation of, 470
Dixon, Walter, on the Electrification of the Ebbw Vale Works and Collieries, 299, 306
Droitaumont, Workmen's Dwellings at, Schneider and Co. (xv, xvi, *Sixteen-page Supplement, September 17th*, 1920)
Drummond 3¼in. Lathe, 328, 333
Dublin and Kingstown Locomotive of 1834, 15
Dunlop, James, on the Development of Locomotive Valve Gear, 15, 49

E

EALING and Shepherd's Bush Railway, 118
Eastleigh Shops, London and South-Western Railway, War Work, 77
Ebbw Vale Works and Collieries, Electrification of, Walter Dixon, 299, 306
Electrical Apparatus Company, Relay Motor Starter, 332
Emmet, W. L. R., Mercury Vapour Boiler, 516
Ex-German Battleship Baden and the Cruiser Nürnberg, 319 (*Two-page Supplement, October 1st*, 1920)
Experiment Locomotive of 1833, 15

F

FLEMING, A. P. M., and J. R. Clarke, on Radiological Testing of Materials, 642
Foster Instrument Company, Radiation Pyrometer and Thermo-couple Recorder, 247
Foster Millivoltmeter, 247
Foster, William, and Co.'s Steam Wagon, 58
Fowler, John, and Co., Ploughing Machines and Appliances, 428, 434
Fullagar, Motor Ship, Cammell Laird and Co., Limited, 69

G

GALVANISING Equipment Company's Rust-proofing Process, 539, 540
Garrett, Richard, and Sons, Limited, 3½-Ton Electric Vehicle, 404, 425
General Vehicle Company's 3½-Ton Electric Tipping Wagon, 402, 404
German Giant Gun. Sir George Greenhill, 651
Gilboa Dam and Shandaken Tunnel for New York Water Supply, 627
Gilman, F. L., Automatic Current Motor, 308
Glasgow, Shipbuilding, Engineering and Electrical Exhibition at, 504, 538
Gray's Express Engine Built by Shepherd and Todd, 1840, 370
Great Northern Three-cylinder Fast Goods Engine, 652, 654, 663 (*Two-page Supplement, December 31st*, 1920)
Great Western Railway Works at Swindon in War Time, 27, 36
Greenhill, Sir George, on the German Giant Gun, 651
Greenwood and Batley's 2-Ton Electric Truck, 246, 247
Guillou, Monsieur Henri. Adhex Leather Belting, 590 (Letter), 606

H

HACKWORTH S Locomotive Gear of 1849, 17
Hall, J. and E., Hallford 5-Ton Tipping Lorry, 425, 426
Hallford 5-Ton Tipping Lorry, 425, 426
Hamworthy Engineering Company's Oil Engine Winch, 58
Handley Page Aeroplane Wing, 421
Handley Page W 8 Type Passenger Biplane, 52 (*Supplement, July 16th*, 1920)
Hawthorn's Locomotive Gear of 1840, 16
Herbert, Alfred, Machine Tools at Olympia: Broaching Machine, 270, 274
Cold Sawing Machine with Chip Remover, 270, 274
Radial Drilling Machine, 270, 271
Vertical Milling Machine, 271, 272
Herbert, E. G., Limited, Radial Sawing Machine, 246
Heslop, Major D. G., on the Baghdad Railway, 469, 480 523, 551, 560, 601 (*Two-page Coloured Supplement, November 26th*, 1920)
Hick, B., and Son, Bolton, Locomotives Built by, 102
Hick, Hargreaves and Co., Limited, Diesel Engines for South America, 210
Hiroi, I., on The Force and Power of Waves, 184
Holroyd, J., and Co., Limited, Screw-chasing Machine, Automatic, 357; Bar-grinding Machine, 357
Houston, Sir A. C., on Rapid Filtration of Water, 218
Hubert, Professor H., on Cockerill Blast-furnace Gas Engines, 495: (Letter), 558
Hudson River Vehicular Tunnel, 394
Hughes, W. E., on Electro-deposited Iron: Its Value for Engineering Purposes, 350
Hunt, Herbert, and Sons, Twist Drill Sharpening and Thinning Machine, 237
Hurst, Charles, on Valves for Steam and Gas Engines, 153
Hydro, Steel Steamer Hopper Dredger, 176, 177

I

IGRANIC Electric Company's Resistance Charging Unit, 235
India, Petrol Tramcars for, McEwan, Pratt and Co., 513
Indian Railways, Electrification of, 530
Ingersoll Steam Drill and Drilling Barge, 202
International Aero Exhibition, Olympia, 52, 62, 78, 86 (*Two-page Supplement, July 16th*, 1920)
Irthlingborough Iron Mine, 177
Irwin and Jones, Electric Trucks, 234, 235
Italian Flotilla Leaders, 267, 278
Italian Torpedo Craft, Aquila, Sparviero, Antonio Mosto, and 42 P.N., Messrs. C. and T. T. Pattison, 630 638

J

JONES, A. A., and Shipman's Drilling and Grinding Machines, 270, 274

K

KELVIN, Bottomley and Baird, Limited, Pneumercator Tank Gauge, 505, 506
Kendall and Gent, Limited, Vertical, Plano and Other Milling Machines, 295, 296

Kitching, W. and A., Hope Town Foundry, Darlington, E. L. Ahrons, 419; (Letters), 448, 478, 528

L

LANG, John, and Sons, Centering Machine, 358

La Normande Metallurgical Company, Works (Caen) (Schneider and Co.):
(ix, xi, xii, *Sixteen-page Supplement, September 17th*, 1920)
Blast-furnaces (ix, xi, xii, *Sixteen-page Supplement, September 17th*, 1920)
Cogging Mill (ix, xiv, *Sixteen-page Supplement, September 17th*, 1920)
Metal Mixer, 700-Ton Gas-fired (xiv, xv, *Sixteen-page Supplement, September 17th*, 1920)
Open-hearth Ingot Stripper (xiv, xv, *Sixteen-page Supplement, September 17th*, 1920)

LEYLAND Motors, Limited, Eight-cylinder Car and Engine, 476, 477
Lincolnshire Oil Engines, F. H. Livens, 103, 108, 140
Linzey, E. A. V., on Casting Pipe Specials in Green Sand, 226
Livens, F. H., and W. Barnes on Recent Excavator Practice, 82
Livens, F. H., on Some Lincolnshire Oil Engines, 103, 108, 140
Locomotion No. 1, Stockton and Darlington Railway Engine, 1825, 49
London and South-Western Railway Workshops in War Time, 77
Lostock Junction Railway Collision, 348
Lovekin, Luther D., on Surface Condensers, 618

M

McEWAN, Pratt and Co., Petrol Tramcars for India, 513
McLaren, J. and H., Motor Tractor and Power Windlass, Cultivator and Reversible Harrow, 582
McLaren's Motor Windlass for Cable-haulage Ploughing, 32
Mammoth 200-Ton Floating Crane, A. F. Smulders, 375, 378
Mariner, Oil-electric Driven Trawler, 612, 616
Marshall, Sons and Co., New Power Station, Gainsborough, 106
Martinsyde Type "A" Freight Carrier, 54 (*Supplement, July 16th*, 1920)
Mather, Sir William (Portrait), 305
Meandros, Cargo Steamship, J. I. Thornycroft and Co., Limited, 534, 542
Meandros, Steamship, Engines for, J. I. Thornycroft and Co., Limited, 152
Mesta Machine Company's 25,000 H.P. Geared Steam Mill Engine, 110
Metropolitan District Railway Cars, 660, 662
Metropolitan - Vickers Electrical Company, Turbo-alternator Set at Stoke-on-Trent, 151
Milnes, Henry, 3½in. Lathe, 358, 359
Mirabello, Italian Flotilla Leader, 267, 278
Morgan, A. and J., Bolt-hole Widening and Boring Machine, 540, 541
Mumford, A. G., Limited, Boiler Feed-water Regulator, 352
Murray River, Australia, Improvement, 171, 180

N

NAPIER 450 H.P. "Lion" Engine, 78, 86
National Gas Engine Company, Paraffin, Petrol or Gas Engine, 8, 9
National Gas Engine Company, 120 H.P. Three-cylinder Vertical Gas Engine, 567
Newall Gauge Company, One-millionth Inch Measuring Machine, 474
Newton 3½-Ton Electric Tipping Wagon, 424, 425
New York Water Supply, Gilboa Dam and Shandaken Tunnel, 627
New Zealand Locomotives, Recent, 142
Niagara, Hydro-electric Developments at, 608
Noble and Lund's Electrically-driven Planing Machine, 619
North-Eastern Railway Mineral Locomotive, 186 (*Two-page Supplement, August 20th*, 1920)
Norton Universal Grinding Machine, 271, 274

O

OERLIKON Single-phase Electric Goods Locomotives, 112, 115 (*Two-page Supplement, July 30th*, 1920)
Olympia, Commercial Motor Vehicle Exhibition, 400, 404, 424, 425
Olympia, International Aero Exhibition, 52, 62 (*Two-page Supplement, July 16th*, 1920)
Olympia, Machine Tool Exhibition at, 228, 232, 233, 244, 254, 269, 274, 291, 302, 328, 331, 357
Olympia and White City Motor Car Show, 450, 476
Owens, Dr. J. S., on the Removal of Reefs in the Rio Guadiana, 201
Oxford, Worcester and Wolverhampton 2-4-0 Engine, 370

P

PARKINSON, J., and Son, Improved Sunderland Gear Planer, Universal Milling Machine, 357, 358
Perry, F. B., on the Uniflow Steam Engine, 104, 113
Pierremont and Marske Locomotives, 1837, 420
Plenty and Son, High-compression Marine Oil Engine, 224, 225
Pletts, J. St. V., Useful Drawing Implements, 670
Pneumercator Tank Gauge, Kelvin, Bottomley and Baird, Limited, 505, 506
Poerio, Italian Flotilla Leader, 267, 278
Poultney, E. C., London and North-Western Oil-fuel Burning Locomotive, 243; Great Northern Three cylinder Goods Engine, 652, 654, 663 (*Two page Supplement, December 31st*, 1920)—*see also* Locomotive Footplate Experiences, 324, 346, 367, 482, 588
Precision Motor Cycle Works, Birmingham, F. E. Baker, Limited, 575, 586
Prinses Juliana Cross-Channel Dutch Steamer, 174
Punshon's Locomotive Gear of 1839, 16

Q

"QUEEN" Class Locomotive, 1837, 420

R

"RABY CASTLE" Class Engine, 1839, 420
Railway Foundry, Leeds (E. B. Wilson and Co.), E. L. Ahrons, 369
Raleigh, H.M. Light Cruiser, William Beardmore and Co., Limited, 374
Ramsay Marine Governor, Ramsay Marine Engineering Company, Limited, 538
Ransome and Marles Bearing Company, Roller and Ball Bearings, 333
Ransomes, Sims and Jefferies, Limited, "The Boon" Motor Plough, 33
Ransomes, Sims and Jefferies 3½-Ton Electric Tipping Wagon, with Reducing Gear, 402, 404
Ransomes, Sims and Jefferies Steam Wagon, and Boiler, 582, 583
Rapid Magnetting Machine Company, Magnetic Ore Separator, 361
Renault 7-Ton Tipping Wagon and Reduction Gear, 424, 425, 426
Rheograph Water Flow Recorder, United Water Softeners, Limited, 42
Richards, George, and Co., Keyway Cutting Machine, 293
Richards, George, and Co., Taper-turning Head for Vertical Boring Mills, 485
Rio Guadiana, Removal of Reefs in, Dr. J. S. Owens, 201
Robinson, Thomas, and Son, Vertical Band Saw and Rack Bench, 658, 659
Rolls-Royce 600 H.P. "Condor" Engine, 78, 85
Rolls-Royce Touring Car, 499
Roosevelt, Theodore, Motor Ship, 236
Royal Agricultural Show at Darlington, 8, 32, 58
Royal George, Stockton and Darlington Railway Engine, 1827, 49

S

SCARAB Liquid Fuel Burner, 243
Schneider and Co., Messrs., Iron, Steel and Engineering Works (*Sixteen-page Supplement and Four-page Supplement, September 17th*, 1920)—*see also* Creusot, &c.
Selson Engineering Company's Electric Drill, 359, 360
Selson Engineering Company, Small Swiss Lathes, 328, 333
Serck Radiators, Oil Cooler, 540
Seth Boyden's Engine of 1837, 15
Sharp, Roberts and Co.'s Engines, 15
Sheffield-Simplex Chassis of 50 H.P. Six-Cylinder Car, 477
Short Brothers' All-metal Freight Biplane, "Silver Streak," 52, 53, 62
Siddeley 300 H.P. Air-cooled Engine and 500 H.P. "Tiger" Engine, 78, 86
"Silver Streak," All-metal Freight Biplane, Short Brothers, Limited, 52, 53, 62
Singer Tower, New York, 27
Smith and Coventry, Limited, Sensitive Drilling Machine, 359
Smith and Coventry, Limited, Spiral Bevel Gear Planer, 232, 233
Smithfield Club Show, 582
Smulders, A. F., 200-Ton Floating Crane, for Liverpool, 375, 378
Spence, Hugh S., on Concentrating Graphite, 258
"Still" and "Sulzer" Marine Oil Engines' Indicator Diagrams, 90
Stirk, John, and Sons, Limited, Electrically-driven Planing Machine, 245, 246
Stockton and Darlington Railway Engines, 1825, 1827 and 1833–1860, 49, 419
Straker-Squire Gully Clearing Wagon, 424, 425
Sunderland Gear Planer, J. Parkinson and Son, Limited, 357, 358
Supermarine Aviation Works Flying Boat, 53, 54 (*Supplement, July 16th*, 1920)
Swindon Works in War Time, 27, 36
Swinton, Alan A. C., on Wireless Telegraphy and Telephony, 592
Swiss Federal Railways Single-phase Electric Goods Locomotives, 112, 115 (*Two-page Supplement, July 30th*, 1920)

T

TANGYE, George (Portrait), 381
Tangyes Limited, Railway Axle Machining Equipment, 508, 512
Tasmania, Hydro-electric Power Works at the Great Lake, 3, 12, 40 (*Two-page Supplement, July 2nd*, 1920)
Taurus Mountains, Baghdad Railway, Overhead Ropeway, 470, 480
Thomson, Hedley, Fit Testing Apparatus, 474
Thornycroft, J. I., and Co., Cargo Steamer Meandros Launched at Woolston, Engines, 152, 534, 542
Thornycroft, 40 H.P. Type J Lorry, 3½-Ton Tipping Wagon, 400, 401
Tilling-Stevens Motor Omnibus and Chassis, 424, 425
Toolmakers and Light Machinery, Limited, 4in. Bench Lathes, 328, 333
Trinity Vestry Building and Tunnels, 25

U

UNIFLOW Air Pump, 104
"Unit" Experimental Diesel Engine at the Admiralty Laboratory, 93, 94
United Alkali Company's New Power Station, 56
United Water Softeners, Limited, Rheograph Water Flow Recorder, 42

V

VAMMA, Norway, Power-house and Dam, 324
Vernon's Chip Remover for Circular Saws, 270, 274
Vickers Limited, Aircraft Works, Weybridge, 444, 454
Vickers Limited, 54in. Broaching Machine, 294, 295, 302
Vickers-Vimy Commercial Machine, 445, 454
Vulcan End-tipping Wagon, 30-Cwt., 400, 401
Vulcan Motor and Engineering Company's Labour-saving Devices, 132, 133, 136

W

WALKER, Dr. W. J., on Thermodynamic Cycles in Relation to Internal Combustion Engines, 640, 655, 666
Walker Travelling Gantry Crane, 631
Wallace Farm Implements, Limited, Burt Single Sleeve-valve Petrol Engine, 154, 155, 158
Wallace and Tiernan, Chlorinators, 531, 564
Walschaerts' Locomotive Gear of 1844, 17
Ward, Haggas and Smith, Open-sided Planer, 293
Ward, H. W., and Co., Capstan and Turret Lathes, 293, 295, 302.
Watkinson, Professor W. H., on Dynamical Method for Raising Gases to a High Temperature, 198
Watson, Laidlaw and Co., 50-Gallon Cream Separator, 10
Welch, Professor J. J., on Design and Construction of Mercantile Vessels, &c., 34, 39
Wellman Bibby Company, Flexible Coupling for Shafting, 252
White, E. T., and Co., 11.9 H.P. Four-cylinder Motor Car Engine, 476, 477
White, J. S., and Co., H.M. Destroyer Wolverine, 130
Whitecross Wire Rod Rolling Mill, Electrically-driven, 250, 251
Wicksteed, Charles, and Co., Limited, Portable Drilling and Grinding Outfits, Electrical, 360, 361; Single-purpose Lathe, 293, 302
Wilson, J. H., and Co., 5-Ton Gantry Crane, 462
Wilson, W. H., and Miss T. D. Epps, on Construction of Thermo-couples by Electro-deposition, 143
Wolverine, H.M. Destroyer, J. S. White and Co., Limited, 130
Wolverton, London and North-Western Railway, Train for the Commander-in-Chief, 163

Z

ZEELAND Steamship Company's Steamer Prinses Juliana, 174

ECONOMISERS—*see* Feed Heating

ELECTRICAL MATTERS:
Blast-furnace Gas Engine and Electric Generator, Creusot Works, Schneider and Co (ii, *Sixteen-page Supplement, September 17th*, 1920)
CO_2 Recorder, Cambridge and Paul Instrument Company, 335
Dynamo Erecting Shop at Champagne-sur-Seine Works, Schneider and Co (xii, xiii, *Sixteen-page Supplement, September 17th*, 1920)
Ebbw Vale Works and Collieries, Electrification, Walter Dixon, 299, 306
Enclosed Motor for Steel Works, Bruce Peebles and Co., 504
Glasgow, Shipbuilding, Engineering and Electrical Exhibition at, 504
Hydro-electric Power Works at Great Lake, Tasmania, 3, 12, 40 (*Two-page Supplement, July 2nd*, 1920)
Locomotives—*see* Locomotives
Magnetic Ore Separator, Rapid Magnetting Machine Company, 361
Millivoltmeter for Pyrometer Work, Foster Instrument Company, 247
Motor Car Chassis, Crown Magnetic, 498; (Letters), 528, 558, 606
Motor Switch Panel, British Thomson-Houston Company, 247, 248
Newton Brothers, Tilling-Stevens Motors, Limited, 424, 425—*see also* Separate Headings
Oil-electric Drive on Shipboard, American Beam Trawler Mariner and Auxiliary Yachts Elfay and Guinivere, 612, 616
Oil Switches for Large Electrical Supply Systems, 220
Olympia Commercial Motor Exhibition, Electric Vehicles, R. Garrett and Sons, Ransomes, Sims and Jefferies, General Vehicle Company, 402, 404, 425
Portable A.C. Welding Equipment, Alloy Welding Processes, Limited, 360, 361
Power Station at Gainsborough, Marshall, Sons and Co., 106
Pyrometer, Radiation, and Thermo-couple Recorder, Foster Instrument Company, 247
Railways—*see* Railways
Relay Motor Starter, Electrical Apparatus Company, 332
Resistance Charging Unit, Igranic Electric Company, 235
Split Field Motor Drive for Planer, J. Stirk and Sons, Limited, 245, 246
Thermo-couples, Electrolytically-deposited, W. H. Wilson and Miss T. D. Epps, 143

ELECTRICAL MATTERS (*continued*):
Thermometer, Electrical Distance, Cambridge and Paul Instrument Company, 335
Trucks, Electric, at Olympia, 234, 235, 246, 247
Turbo-alternator, 10,000 K.W., 1260 R.P.M., Creusot Works, Schneider and Co (v, *Sixteen-page Supplement, September 17th*, 1920)
Turbo-alternators, Set at Stoke-on-Trent, Metropolitan-Vickers Electrical Company, 151
United Alkali Company's New Power Station, 56
Vamma Hydro-electric Plant, Power-house and Dam, 324

ELECTRO-DEPOSITED Iron: Its Value, &c., W. E. Hughes, 350

ENGINES AND MOTORS:
Blast-furnace Gas-blowing Engine, 3000 H.P., Building a, Creusot Works, Schneider and Co. (v, *Sixteen-page Supplement, September 17th*, 1920)
Blast-furnace Gas Blowing Engines and Turbo Blower at La Normande Works, Schneider and Co (xi, xii, xiii, xiv, *Sixteen-page Supplement, September 17th*, 1920)
Blast-furnace Gas Engine and Electric Generator, Creusot Works, Schneider and Co. (ii, *Sixteen-page Supplement, September 17th*, 1920)
Burt Single Sleeve Valve Petrol Engine, Wallace Farm Implements, Limited, 154, 155, 158
Cockerill Blast-furnace Gas Engines, Valve Gear, &c., Professor H. Hubert, 495; (Letter), 558
Diesel Engines for South America, Hick, Hargreaves and Co., Limited, 210
Engines at the International Aero Exhibition, 52, 78, 86
Experimental 300 H.P. Single-cylinder Marine Diesel Engine, 93, 94
Gas Engine, 6 H.P. at Darlington Show, Governor Mechanism, &c., Crossley Brothers, Limited, 8, 9
High-compression Marine Oil Engine, Plenty and Son, Limited, 224, 225
Italian Coastal Torpedo Boats' Engines, C. and T. T. Pattison, 630, 638
Lincolnshire Oil Engines, Some, F. H. Livens, 103, 108, 140
Mariner, Beam Trawler, Engines of the, 612, 616
Meandros, ss., Engines for, J. I. Thornycroft and Co., Limited, 152, 534, 542
Motor Car Engine, Eight-cylinder, Leyland Motors, Limited, 476, 477
Motor Car Engine, 11.9 H.P. Four-cylinder, E. T. White and Co., 476, 477
Oil Engine Winch, Hamworthy Engineering Company, Limited, 58
Paraffin, Petrol or Gas 5 H.P. Engine, National Gas Engine Company, Limited, 8, 9
Petrol or Paraffin Motor Windlass for Cable-Haulage Ploughing, J. and H. McLaren, 32
Ramsay Marine Engine Governor, 538
Rolling Mill Geared Steam Engine, 25,000 H.P., Mesta Machine Company, 110
Steam Wagon, William Foster and Co., Limited, 58
"Still" and "Sulzer" Oil Engines, Marine, Indicator Diagrams, 90
Surface Ignition Engine, W. H. Allen, Son and Co., 32
Thermodynamic Cycles in Relation to Internal Combustion Engines, Dr. W. J. Walker, 640, 655, 666
Uniflow Steam Engine, F. B. Perry, 104, 113
Valves for Steam and Gas Engines, Charles Hurst, 153
Vertical Gas Engine, 120 H.P., National Gas Engine Company, 567

EXCAVATOR Practice, Recent, F. H. Livens and W. Barnes, 82

EXHIBITIONS.
Commercial Motor Vehicle, at Olympia, 400, 404, 424, 425
International Aero, at Olympia, 52, 62, 78, 86 (*Two-page Supplement, July 16th*, 1920)
Machine Tool and Engineering, at Olympia, 228, 232, 233, 244, 254, 269, 274, 291, 302, 328, 331, 357, 508, 512
Motor Car Show, 450, 476, 498
Shipbuilding, Engineering and Electrical Exhibition at Glasgow, 504, 538

F

FEED Heating for Land Power Stations, K. Baumann, 101, 127, 150
Filter, Experimental, Sir A. C. Houston's Report, 218
Firms, Famous, Short Histories of, 102, 369, 419
Flexible Coupling for Shafting, Wellman Bibby Company, 252

IRON AND STEEL:
Ebbw Vale Works, Electrification, Walter Dixon, 299, 306
Electro-deposited Iron: Its Value, &c., W. E. Hughes, 350

Iron, Steel, and Engineering Works of Messrs. Schneider and Co.:
(*Sixteen-page Supplement and Four-page Supplement, September 17th*, 1920)
Blast-furnace, No. 3, Under Construction, Creusot Works, Schneider and Co. (ii, iii, iv, *Sixteen-page Supplement, September 17th*, 1920)
Blast-furnaces at La Normande Works, Caen, Schneider and Co. (ix, xi, xii, *Sixteen-page Supplement, September 17th*, 1920)
Breuil Steel Works, Schneider and Co. (i, vi, vii, x, *Sixteen-page Supplement and Four-page Supplement, September 17th*, 1920)
Cogging Mill at La Normande Works, Schneider and Co. (ix, xiv, *Sixteen-page Supplement, September 17th*, 1920)
Furnace, "Electro-metals," 3.5-Ton, Creusot, Schneider and Co. (vii, *Sixteen-page Supplement and Four page Supplement, September 17th*, 1920)
Furnace, Mill Re-heating, Creusot, Schneider and Co. (viii, *Sixteen-page Supplement and Four-page Supplement, September 17th*, 1920)
Furnace, 12-Ton Tilting, Creusot Works, Schneider and Co. (ii, *Sixteen-page Supplement, September 17th*, 1920)
La Normande Steel Works, Caen, Schneider and Co. (ix, xi, xii, *Sixteen-page Supplement, September 17th*, 1920)
Metal Mixer, 700-Ton Gas-fired, La Normande Works, Schneider and Co. (xiv, xv, *Sixteen-page Supplement, September 17th*, 1920)
Open-hearth Furnace, 60-Ton, and Shop, Charging Side and Tapping Side, Breuil, Schneider and Co. (vi, x, *Sixteen-page Supplement and Four-page Supplement, September 17th*, 1920)
Open-hearth Ingot Stripper, La Normande Works, Schneider and Co. (xiv, xv, *Sixteen-page Supplement, September 17th*, 1920)

IRTHLINGBOROUGH Iron Mine, 177

L

LABOUR-SAVING Devices at the Vulcan Motor and Engineering Company's Works, 132, 133, 136
Lathes—*see* Machine Tools
Leather Belt, New Type, The Adhex, Monsieur Henri Guillou, 590; (Letter), 606
Lincolnshire Oil Engines, F. H. Livens, 103, 108
Liquid Fuel Burner, Scarab Oil Burning Company, 243
Locks on the Murray River, Australia, 171, 180
Locomotive, Derwent Goods and Mineral, 1845, 420
Locomotive and Gears of 1833, J. and C. Carmichael, 15, 16
Locomotive, Great Northern Three-cylinder Fast Goods, 652, 654, 663 (*Two-page Supplement, December 31st*, 1920)
Locomotive, London and North-Western Oil Fuel Burning, E. C. Poultney, 243
Locomotive, North-Eastern Railway Mineral, 186 (*Two-page Supplement, August 20th*, 1920)
Locomotive of 1837, Seth Boyden, 15
Locomotive, 4–6–2 Type Pacific, New Zealand Government Railway, 142
Locomotive, "Queen" Class, 1837, 420
Locomotive, "Raby Castle" Class, 1839, 420
Locomotive, 4–6–4 Type Tank, New Zealand Government Railway, 142
Locomotive Valve Gear, Development of, James Dunlop, 15, 49
Locomotive Works, W. Beardmore and Co., 149 (*Two-page Supplement, August 13th*, 1920)
Locomotives on the Baghdad Railway, 552, 553, 554
Locomotives Built at the Railway Foundry, Leeds, 369
Locomotives of 1833, "Experiment," and 1834, Dublin and Kingstown Railway, Sharp, Roberts and Co., 15
Locomotives, High-pressure Geared, Bell Locomotive Works, 461
Locomotives by Messrs. B. Hick and Son, Bolton, Birmingham and Gloucester Railway, 1840, Midland Railway, 1844, 103
Locomotives, "Pierremont" and "Marske," 1855, 420
Locomotives, Single-phase Electric Goods, Swiss Federal Railways, 112, 115 (*Two-page Supplement, July 30th*, 1920)
Locomotives, Steam and Electric, Diagrams of, 530
Locomotives for the Stockton and Darlington Railway, 1825, 1827, 49, 419
Lorry, 5-Ton Tipping, Hallford, 425, 426

M

MACHINE TOOLS:
Automatic Nut Chasing Machine, J. Holroyd and Co., Limited, 357

MACHINE TOOLS (*continued*):
Axle Facing and Centering Machine, Axle Turning Lathe, Tangyes Limited, 508, 512
Bar-grinding Machine, Centreless, J. Holroyd and Co., Limited, 357
Bateman High-speed Planing Machine, with Electric Drive, 292
Bolt-Hole Widening and Boring Machine, A. and J. Morgan, 540, 541
Broaching Machine, 70in., Alfred Herbert, Limited, 270, 274
Broaching Machine, 54in., Vickers Limited, 294, 295, 302
Centering Machine, John Lang and Sons, 358
Cold-sawing Machine with Chip Remover, Alfred Herbert, Limited, 270, 274
Cutting-off Machines, Clifton and Baird, 269
Double Helical Gear Generator, David Brown and Sons, Limited, 291, 302
Drilling and Grinding Machines, A. A. Jones and Shipman, 270, 274
Drilling Machine, Ball Bearing, Sensitive and Belt-changing Gear, Smith and Coventry, Limited, 359
Drilling Machine, Multi-spindle, the Baush, 270, 274
Drilling Machine, Sensitive, B.S.A. Tools, Limited, 246
Drilling Machines, Radial, William Asquith, Limited, 245, 254
Electric Drill, Selson Engineering Company, 359, 360
Electric Drilling and Grinding Outfits, Portable, Charles Wicksteed and Co., Limited, 360, 361
Electric Drills and Magnetic Tool Post, Consolidated Pneumatic Tool Company, 360
Exhibition, Machine Tool and Engineering, at Olympia, 228, 232, 233, 244, 254, 269, 274, 291, 302, 328, 331, 357, 508, 512
Gear Planer, Improved Sunderland, J. Parkinson and Son, 357, 358
Grinder, Electric, Consolidated Pneumatic Tool Company, 360
Grinding Machine, 14in. by 16in. Plain, Churchill and Co., Limited, 332
Heavy Planing Machine, Creusot Works, Schneider and Co. (xiii, *Sixteen-page Supplement, September 17th*, 1920)
Keyway Cutting Machine, George Richards and Co., 293
Lathe, 7½in. Capstan, H. W. Ward and Co., Limited, 293, 302
Lathe, 13in. Combination Turret, H. W. Ward and Co., Limited, 295
Lathe, 32in., Henry Milnes, 358, 359
Lathe, 84in. Repetition, Dean, Smith and Grace, 359
Lathe, Single-purpose, Charles Wicksteed and Co., Limited, 293, 302
Lathes, Some Small, Exhibited at Olympia, 328, 331
Machine Tools at Beardmore's Locomotive Works, 149 (*Two-page Supplement, August 13th*, 1920)
Machine Tools at the Works of the Vulcan Motor and Engineering Company, 132, 133
Milling Machine, Universal, J. Parkinson and Son, 357, 358
Milling Machines, Horizontal and Vertical, James Archdale and Co., 244, 245, 254
Milling Machines, Vertical, and Plano and Milling Cutter, Kendall and Gent, Limited, 295, 296
Open-sided Planing Machine, Ward, Haggas and Smith, 293
Planing Machine, Electrically-driven, Noble and Lund, Limited, 619
Planing Machine, "Hiloplane," Electrically-driven, John Stirk and Sons, Limited, 245, 246
Radial Drilling Machine, Alfred Herbert, Limited, 270, 271
Sawing Machine, Radial, E. G. Herbert, Limited, 246
Scarfing and Milling Machine, J. W. Barnes, Limited, 162
Spiral Bevel Gear Planing Machine, Smith and Coventry, Limited, 232, 233
Spur Gear Generator, D. Brown and Sons, Limited, 233, 234
Swiss "Autometric" Lathe, Screw-cutting Lathe, Bench Lathe, André Bechler, Selson Engineering Company, 328, 333
Taper Turning Head for Vertical Boring Mills, G. Richards and Co., Limited, 485
Twist Drill Sharpening and Thinning Machine, Herbert Hunt and Sons, 237
Universal Grinding Machine, The Norton, 271, 274
Vertical Milling Machine, Alfred Herbert, Limited, 271, 272
Worm and Worm Wheel Machinery at Olympia, David Brown and Sons, Limited, 228, 234

ENGINES AND MOTORS:

General:
Darlington Show, Steam and Internal Combustion Engines, 8, 32, 58
Ramsay Marine Engine Governor, 538
Valves for Steam and Gas Engines, Charles Hurst, 152

Internal Combustion Engines:
Burt Single Sleeve Valve Petrol Engine, Wallace Farm Implements, Limited, 154 155, 158

ENGINES AND MOTORS *(continued)*:

Internal Combustion Engines *(continued)*:

Cockerill Blast-furnace Gas Engines, Professor H. Hubert, 495; (Letter), 558
Condor, 600 H.P., and other Engines at the International Exhibition, Rolls-Royce Company, 78, 86
CREUSOT AND ITS ASSOCIATED WORKS, Messrs. Schneider and Co., Engines at, (*Sixteen-page Supplement and Four-page Supplement, September 17th*, 1920)
Gas Blowing Engines (Creusot), ii, iv, v, xiv, xv
Gas Blowing Engines (La Normande), xiii, xiv
Crossley's 6 H.P. Gas Engine, Governor Mechanism, &c., 8, 9
Diesel-electric Self-propelled Railway Coaches, 511
Diesel Engines, Experimental Work, &c., C. J. Hawkes, 90, 93
Diesel Engines for South America, Hick, Hargreaves and Co., Limited, 210
Engines for Oil-electric Yachts Elfay and Guinivere and Beam Trawler Mariner, 612, 616
Green Engine Company's Motor for Avro Aeroplanes, 52
Hamworthy Oil Engine Winch, 58
High Compression Marine Oil Engine, Plenty and Son, Limited, 224, 225
High-speed Petrol Engines, H. R. Ricardo, 256
Lincolnshire Oil Engines, F. H. Livens, 103, 108, 140, 506
Motor Car, 19.6 H.P. Engine, Crossley Motors, Limited, 450
Motor Car Engine, Eight-cylinder, Leyland Motors, Limited, 476, 477
Motor Car Engine, 11.9 H.P. Four-cylinder, E. T. White and Co., 476, 477
Motor Car Engines at Olympia and White City Exhibition, 450, 476
Motor for Plough and other Farm Implements, Ransomes, Sims and Jefferies, Limited, 33
Motor Windlasses for Cable Haulage Ploughing, J. and H. McLaren, 32
Napier 450 H.P. "Lion" Aero-engine, 78, 86
National Gas Engine Company's 5 H.P. Petrol, Paraffin or Gas Engine, 8, 9
Small Petrol and Paraffin Engines and Semi-Diesel Crude Oil Engines, Petters Limited, 58
Specific Heat and Dissociation in Internal Combustion Engines, H. T. Tizard and D. R. Pye, 257
Stafford Motor Car Engine, 499
"Still" and "Sulzer" Engines, Comparative Trials of, William Denny, 90
Surface Ignition Engine, W. H. Allen, Son and Co., Limited, 32
Thermodynamic Cycles in Relation to Internal Combustion Engines, Dr. W. J. Walker, 640, 655, 666
Three-cylinder Vertical Gas Engine, 120 H.P., National Gas Engine Company, 567
"Tiger" 500 H.P. Aero-engine and Air-cooled Aero-engines, Armstrong-Siddeley Motors, Limited, 78, 86
Water Injection in Crude Oil Engines, 631

Steam Engines:

CREUSOT WORKS, MESSRS. SCHNEIDER AND Co., Steam-driven Corliss Engines, ii, viii (*Fifteen-page Supplement, September 17th*, 1920)

LEATHER Belt, New Type of, the Adhex, Monsieur Guillou, 590; (Letter), 606

LETTERS FROM OUR OWN CORRESPONDENTS:

England, North of, 21, 45, 71, 97, 98, 121, 145, 167, 189, 213, 239, 240, 263, 287, 312, 339, 340, 363, 388, 412, 438, 464, 490, 491, 518, 544, 545, 570, 571, 596, 622, 646, 672

Lancashire, 20, 44, 70, 95, 120, 144, 166, 188, 212, 238, 262, 285, 312, 338, 362, 387, 411, 436, 463, 489, 517, 543, 569, 594, 621, 645, 671

Midlands and Staffordshire, 19, 43, 69, 95, 119, 122, 143, 165, 187, 211, 237, 261, 264, 285, 311, 337, 340, 361, 386, 410, 436, 462, 488, 516, 519, 542, 568, 594, 620, 644, 670

Scotland, 21, 45, 71, 98, 121, 145, 167, 189, 213, 239, 264, 287, 313, 339, 364, 389, 412, 438, 464, 490, 518, 544, 570, 596, 622, 623, 646, 672

Sheffield, 19, 22, 44, 46, 70, 72, 96, 120, 122, 144, 165, 188, 212, 238, 240, 262, 264, 286, 288, 312, 314, 338, 362, 364, 388, 411, 413, 437, 439, 463, 465, 490, 517, 519, 543, 569, 595, 597, 621, 645, 672

Wales and Adjoining Counties, 21, 22, 46, 72, 97, 98, 122, 146, 168, 189, 190, 214, 240, 264, 288, 314, 339, 364, 389, 413, 438, 439, 464, 465, 490, 491, 519, 545, 570, 571, 596, 597, 623, 647, 673

P

PARAFFIN Engines—*see* Engines
Patent Practice, United States, 134

PATENT SPECIFICATIONS

British:
- Aeronautics, 47, 123, 191, 342, 416
- Batteries and Accumulators, 124, 416
- Building, 266, 626
- Condensers and Feed-water Heaters, 47, 341, 415, 467
- Cranes and Conveyors, 170, 599
- Crushing and Grinding, 216, 650
- Dynamos and Motors, 147, 169, 192, 341, 416, 467, 491, 521, 547, 625, 649, 675
- Engines, Internal Combustion, 23, 73, 123, 147, 191, 215, 241, 265, 289, 315, 341, 365, 441, 467, 491, 521, 547, 599, 625, 649, 675
- Engines, Steam, 191, 265, 441, 573
- Gas Producers, 99, 365
- Lighting and Heating, 24, 74, 100, 148, 170, 192, 216, 242, 266, 290, 316, 342, 392, 416, 494, 522, 548, 574, 676
- Locomotives, 124, 574
- Machine Tools and Shop Appliances, 23, 47, 100, 124, 170, 192, 242, 316, 366, 392, 415, 522, 574, 650
- Measuring and Testing Instruments, 123, 169, 391, 547, 573
- Mines and Metals, 242, 600, 626, 676
- Miscellaneous, 24, 74, 100, 148, 170, 192, 216, 242, 266, 290, 316, 342, 392, 442, 468, 494, 522, 574, 600, 626, 650
- Motor Cars and Road Traffic, 23, 241, 442, 600
- Ordnance and Armour, 100, 600
- Pumping and Blowing Machinery, 73, 170, 216, 266, 316, 392, 521, 548, 574
- Ships and Boats, 24, 99
- Steam Generators, 99, 123, 147, 241, 341, 365, 391, 491
- Switchgear, 47, 73, 100, 124, 147, 169, 215, 241, 265, 315, 342, 365, 391, 415, 441, 467, 491, 521, 573, 599, 649, 675
- Telegraphs and Telephones, 47, 99, 170, 192, 216, 241, 266, 289, 315, 341, 366, 416, 442, 468, 547, 573, 625, 649
- Tramways and Railways, 99, 124, 169, 315, 366, 442, 548, 599
- Transformers, 148, 342, 441
- Transmission of Power, 48, 74, 124, 169, 192, 216, 242, 266, 290, 316, 341, 468, 491, 522, 548, 626, 649, 676
- Turbine Machinery, 147, 265, 521, 573

PATENTS, Enemy, Restored, 283
Patents, Metallurgical, 455
Patentable Manner of Manufacture, 75
Payment of Labour—*see* Labour
Perry, F. B., on the Uniflow Steam Engine, 104, 113; (Letters), 134, 164, 211, 236, 260, 309, 326, 376, 478
Personal and Business Announcements, 22, 48, 74, 100, 148, 170, 190, 214, 288, 314, 342, 366, 392, 413, 439, 465, 487, 519, 545, 571, 623, 647, 676
Petrol Engines—*see* Engines

Pump, High-speed Plunger, B.C.B. Pump Manufacturing Company, Limited, 539
Pump, Rotary, Feuerheerd's Rotors, Limited, 33
Pump, Uniflow Air, F. B. Perry, 104, 113
Punching, High-speed, The Laws of, Captain T. J. Tresidder, 126; (Letter), 309
Pyrometers—*see* Electrical Matters

R

RADIOLOGICAL Testing of Materials, A. P. M. Fleming and J. R. Clarke, 642

RAILWAYS & RAILWAY MATTERS:

General:
- Automatic Train Control, 355
- Axle Machining Equipment, Railway, Tangyes Limited, 508, 512
- Coal Strike of 1912, Railways in, 396
- Companies' Proposals as to Railway Rates, 422
- Diesel-electric Self-propelled Railway Coaches, 511
- Electric Railway Contact Systems, Sir Philip Dawson, 67
- Future of the Railways, 536
- Large Railway Bridge, 506
- Moulds for Rails, A. Wood Hill, 163
- New Railway Policy, 13
- Perfecting the Railway Machine, 587
- Problems of the Electric Railway, G. Wüthrich, 281
- Railway Electrification, 329, 331
- Railway Power Plants and their Management, 665
- Railway Practice in South Africa, Alfred E. Snape, 461
- Railway Works—*see* Works
- Railways' Counter Proposals, 613
- Regan Automatic Train Control System, 348 355
- Train for the Commander-in-Chief, 163
- Training of Railway Staffs, Lord Ashfield, 435

British, Colonial, and Indian:
- Australian Railways, Unification of Gauge, 206; (Correction), 261
- Bombay, Baroda and Central India Railway, War Work of, 43
- British Malaya, Railways in, 433
- British Railway Workshops in War Time, 27, 36, 77
- Buffer Stop Collision, London, Brighton and South Coast Railway, 460
- Ealing and Shepherds Bush Railway, 118
- Great Western Railway, War Work at Swindon, 27, 36
- Indian Railways, 515
- Indian Railways, Electrification of, 530, 550
- London and South-Western Railway, War Work at Swindon, 77
- Lostock Junction Railway Collision, 348
- Metropolitan District Railway Cars, 660, 662
- N.S.W. Railways, Commissioners' Report, 487
- South Africa, Railway Practice in, Alfred E. Snape, 461
- Summer Train Services, 88

Foreign:
- Austria, Electrification Work in, 156
- Baghdad Railway, Major D. G. Heslop, 469, 480, 551, 560, 601 (*Two-page Coloured Supplement, November 26th*, 1920)
- Chinese Railway Conference, 474
- French Railway Reorganisation, 59
- Shanghai-Nanking Railway, 656

RAILWAY LOCOMOTIVES:

General:
- Beardmore's Locomotive Works, 149 (*Two-page Supplement, August 13th*, 1920)
- Development of Locomotive Valve Gear, James Dunlop, 15, 49
- Dynamical Reflections of a Ride on a Footplate, Sir G. Greenhill, 193
- Engines Built at Hope Town Foundry, Darlington (Messrs. W. and A. Kitching), 1833–1860, for the Stockton and Darlington Railway, 419; (Letters), 448, 478, 528
- Engines Built at the Railway Foundry, Leeds, E. B. Wilson and Co., 1840–1858, 369
- Engines and Gear, *circa* 1825–1833, Carmichael's, Crampton's, Dublin and Kingstown, The Experiment, Seth Boyden, Hackworth, Hawthorn, Punshon, Walschaerts, James Dunlop, 15, 49
- Gray's Engines Built by Shepherd and Todd, 1840, 369
- High-pressure Geared Locomotives, Bell Locomotive Works, 461
- Locomotive Footplate Experiences, 75, 230, 243, 324, 346, 367, 482, 588, 654, 663; (Letters), 134, 236, 260, 261, 376 (*Two-page Supplement, December 31st*, 1920)
- Locomotive Shops at Creusot, Schneider and Co., viii (*Sixteen-page Supplement, September 17th*, 1920)
- Scarab Liquid Fuel Burner, 243
- South African Locomotive at Glasgow Exhibition, North British Locomotive Company, Limited, 506
- Steam and Electric Locomotives, 610
- Superheaters, Marine and Locomotive Superheaters, Limited, 506

British, Colonial and Indian:
- Birmingham and Gloucester Railway Engine, 1840, 103
- Caledonian Railway, 367
- Glasgow (Buchanan-street) and Perth, 367
- Glasgow (Central) to Carlisle, 367
- Glasgow and South-Western Railway, Glasgow to Carlisle, E. C. Poultney, 482
- Great Northern Railway, King's Cross to York, E. C. Poultney, 324
- Great Northern Three-cylinder Fast Goods Engine, 652, 654, 663 (*Two-page Supplement, December 31st*, 1920)
- Indian Railways, Electric *v.* Steam Locomotives, 530
- London and North-Western Railway Express Locomotive Burning Oil Fuel, E. C. Poultney, 243
- London and North-Western Locomotives, Euston to Crewe,
- Midland Railway, Carlisle to Leeds, E. C. Poultney, 588
- Midland Railway Six-coupled Goods Engine, 1844, 103
- New Zealand Government Locomotives, Recent Pacific and Tank, 142
- New Zealand Rolling Stock, 617
- North-Eastern Railway, York to Edinburgh, E. C. Poultney, 346; York to Newcastle, 347; Newcastle to Edinburgh, 347; (Letter), 376
- North-Eastern Three-cylinder Mineral Engine, 186 (*Two-page Supplement, August 20th*, 1920)
- South African Locomotive at Glasgow Exhibition, North British Locomotive Company, Limited, 506
- Stockton and Darlington Railway Engines, Locomotion No. 1, 1825, and Royal George, 1827, Messrs. Kitching's Engines, 1833–1860, 49, 419

Foreign:
- Baghdad Railway, Locomotives, 551
- China, Locomotives for, 181
- Mechanical Stokers on American Locomotives, 72
- Single-phase Electric Goods Locomotives, Swiss Federal Railways, 112, 115 (*Two-page Supplement, July 30th*, 1920)
- Spanish-built Locomotives, 571
- Swedish Locomotive Order, 161

RAMSAY, Alexander, on The Human Factor in Industry, 104, 109, 583
Reclamation of Derwent Valley River Lands, 470
Recorder, Water Flow, The Rheograph, United Water Softeners, Limited, 42

SCIENTIFIC AND INDUSTRIAL RESEARCH:
- Admiralty and Research, 663
- Freezing Fish, Interim Report, 617
- Lubricants and Lubrication, 605, 613
- Report, 305, 345

SCREW Gauges, Hardened, Manufacture of, Coventry Gauge and Tool Company, 310, 311
Screwing Tackle, Lehmann, Archer and Co., Limited, 248
Seven-day Journal, 7, 31, 57, 81, 107, 131, 153, 175, 199, 223, 249, 273, 297, 323, 349, 373, 399, 423, 449, 475, 503, 529, 555, 581, 607, 633, 657
Severn, Tidal Hydro-electric Scheme for, 562; (Letters), 606, 644
Shanghai, New Bridge at, 164

SHIPS AND SHIPBUILDING:

General:
- Barcelona, Shipbuilding at, 461
- Characteristics of a Marine Propeller in a Non-uniform Stream, Professor T. B. Abell, 291
- Design and Construction of Mercantile Vessels, &c., Professor J. J. Welch, 34, 39
- Efficiency of Propulsion of Full-sized Ships, C. Frodsham Holt, 91
- Engines, Marine—*see also* Engines and Motors
- Lloyd's Register Shipbuilding Returns, 80
- Oil-electric Drive on Shipboard, 612, 616
- "Pneumercator" Indicator for Ship Displacement Measurement, Kelvin, Bottomley and Baird, Limited, 506
- Propeller Accident, Beneficial, 46
- Ramsay Marine Engine Governor, 538
- Safety of Life at Sea, Sir W. S. Abell, 54
- Shipbuilding Exhibition—*see* Exhibitions
- Shipbuilding in Germany, 137
- Standard Marine Boilers, 584
- Subdivision of Passenger Vessels, George Webster, 54
- Superheaters, Marine and Locomotive Superheaters, Limited, 506

British Navy:
- Raleigh, H.M., Light Cruiser, 374
- Salvage of H.M.S. Vindictive, 289

SHIPS & SHIPBUILDING (*continued*):

British Navy (*continued*):
Wolverine, H.M. Destroyer, J. S. White and Co., Limited, 430

Naval Matters:
Admiralty and Research, 663
Engineering Branch of the Navy, 88
Instructional Ship Models, 487
Jutland Narrative, 456
Lessons from Jutland, 639
Lord Fisher, 63
Naval Design, 159
Naval Exhibits at the Imperial War Museum, 41

Foreign Navies:
Ex-German Battleship Baden, 319, 322 (*Two-page Supplement, October 1st*, 1920)
Ex-German Light Cruiser Nürnberg, 321
Italian Flotilla Leaders:
Aquila, Sparviero, &c., 630, 638
Mirabello Class, Poerio Class, 267, 278
Italian Torpedo Craft, Messrs. C. and T. T. Pattison, 630, 638

Mercantile & Miscellaneous Vessels:
American Beam Trawler Mariner, 612, 616
American Oil-electric Auxiliary Yachts, 612, 616
American Steamships Courageous and Invincible, 296
Cortona, New South American Liner, Launched, 307
Cunard Liner Samaria, 566
Fullagar, Motor Ship, Cammell Laird and Co., Limited, 69
Gas Turbine Ship Climax, A New Year's Eve Vision, 664
German Liners, Sale of the, 281
Hydro, Steel Steam Hopper Dredger, for Lake Michigan, 176, 177
Meandros, Cargo Steamship Launched at Woolston, J. I. Thornycroft and Co., Limited, 152, 534, 542
Princes Juliana, Dutch Cross-Channel Steamer, 174
Theodore Roosevelt, Motor Ship, Burmeister and Wain, 236

Russian Transport Problem, 157
Rust Preventive, Bituminous Paint the Best, 277

S

"SAFETY First" Convention, 214
St. Lawrence River, Question of Deepening, Divided Opinions, 479
Salt Exportation from Portugal, Falling-off in Trade Due to War, 179
Salt Mines in Greece, Increased Output and Cessation of Imports, 585
Salt, Ocean, Volume of, in Terms of United States Area, 272
Sand Removal from Water in Hydro-electric Work, 427
Science Museum, South Kensington, Additions to Collections, 35
Science Museum, South Kensington, Increased Number of Visitors for Instruction, 35

SCIENTIFIC AND INDUSTRIAL RESEARCH:
- Departmental Staff Appointments and Changes, 35, 277, 585

LICENCES ISSUED TO:
- British Electrical and Allied Industries Research Association, 364
- British Motor Cycle and Cyclecar Research Association, 453
- Cutlery Industry, 85, 340
- Launderers' Association, 285
- Leather Manufacturers, 235

Radio Research Board, Sub-committees Appointed to Assist, 179
Research Associations, Approved List of, 203, 235

SEWAGE Sludge Utilisation, 427
Shield for Engineering Apprentices, 74

SHIPS AND SHIPPING MATTERS:
American Shipyards' Output, 227
Antwerp, Company Formed for Ship and Marine Engine Building and Repair, 253
Brazilian Battleship Sao Paulo for Use of Belgian King and Queen, 203
British Ship Repair Work Going to Belgium and Holland, 203
Camellaird-Fullagar Engine, 439
Clyde Transatlantic Traffic Development, 377
Concrete Shipbuilding Failure, Cost as it is and as it might have been, 203
Denmark's Shipping, 1914 and 1918, 353
Frauendorf, New Shipbuilding Firm at, 227
French Construction of Submarines, 253
French Merchant Fleet, Rapid Recovery since War Losses, 353
German Shipbuilders, Large Steel Orders from the United States, 157
German Shipbuilding and Metal Industries, Common Interest, 403
Gliding Boats Test on River Bermejo, Argentina, 85
Hog Island Shipyard Plant Still Unsold by America, 559
Hong-Kong Shipping Returns, 533
Irish Mails Conveyance, Holyhead and Kingstown, New Contract, 533, 559
Japanese Navy Fuel Depôt, 327
Japanese Shipping Lying Idle, 559
Kingston, Jamaica, Oil and Coaling Station for British Ships, 227
Merchant Tonnage Construction in the United Kingdom, 427
Motor Lifeboat for the Lizard, 528
New South Wales Projected Shipbuilding, 227
Oil-burning Steamship Orita Re-conditioned and in Service, 146
Port Navigation during Fog, Monsieur Loth's Apparatus for, 427
Portuguese Sailing Barque under Conversion to Steam by W. Beardmore and Co., 559
St. David, G.W.R. Steamer, under Repair, 403
Scapa Flow, Compensation to be Paid by Germany, 453
Scottish Shipbuilding Figures, 353
Ship Stabilisers, Tests by United States Naval Transport, 453
Ship Surveyor Examination, 442
Southern Belle's Quick Journeys to Brighton, 403
Spain and Chile Steamship Service Negotiations, 157
Steel Steamships, 8100-Ton, Building at Victoria, B.C., 61
Swedish Shipbuilding Industry Suffering from Effect of Exchange, 327
Target Experiments, Unique, on American Battleship Iowa, 179
United States Shipbuilding Output, 253
Vaterland's Three Complete Wireless Transmitters, 637
